IsoMetrix Level 4 (Group Administrator) Training Course

Course length:

The course is a half day course

Number of candidates:

A maximum of two candidates can be accommodated per course

Candidate profile:

Generally there would be one Super User or IsoMetrix Group Administrator for a company. This individual would often be involved in corporate reporting across sites. Typically they would be responsible for standardisation across sites and management of users that have access to multiple sites.

Course overview:

The focus of the course is on Group Administrator functions with particular emphasis of the use and capabilities of the Group (Corporate) site e.g.

- Adding sites
- Master data management (reporting standardisation)
- User management
- Risk assessment configuration
- User Defined Filters and
- Headline Risk management.

Pre-requisite:

This course can only be taken upon successful completion of the IsoMetrix Version 3 Level 3 (Administrator) Training Course.
